

NORTH MECHANICAL
CONTRACTING & SERVICE

North Mechanical Contracting and Service is a leader in the mechanical industry, dedicated to delivering mechanical solutions from concept to success. Based in Indianapolis, we specialize in comprehensive construction, contracting, preventative maintenance, and innovative approaches to mechanical systems. Recently nominated as one of the 2025 Top Workplaces in Indianapolis, North Mechanical takes pride in fostering a culture built on Excellence, Inspiration, and Innovation—and we're looking for team members who share that same drive and commitment to success.

As we continue to grow, we're seeking an experienced HVAC Service Technician to join our team serving the Lafayette area. This is a full-time, field-based position working Monday through Friday, with occasional overtime based on service needs. This position is represented by UA Local 157 and offers the opportunity to join a respected team while receiving competitive union wages and benefits.

In this role, you'll be responsible for diagnosing, troubleshooting, repairing, and maintaining commercial HVAC systems. You'll work independently in the field while providing high-quality service and building strong relationships with customers. Your work will help ensure reliable system performance, occupant comfort, and overall customer satisfaction.

Key Responsibilities:

1. Commercial HVAC System Diagnostics & Repair
2. Rooftop Unit (RTU) Service & Maintenance
3. Split System Service & Maintenance
4. Boiler Service & Troubleshooting
5. Preventative Maintenance & Equipment Inspections
6. Customer Communication & Service Documentation
7. Maintain Safe Work Practices
8. Other Assigned Duties

The ideal candidate will have a minimum of five years of commercial HVAC service experience, with hands-on experience servicing commercial rooftop units, split systems, and boilers. Candidates should possess strong diagnostic and troubleshooting skills, be able to work independently and manage service calls effectively, and maintain a professional, dependable, and safety-focused approach in the field. A valid driver's license with an acceptable driving record is required, and candidates must be willing to join UA Local 157. Preferred qualifications include experience servicing commercial chillers and previous experience working in a service-focused commercial HVAC environment. The ideal candidate takes pride in delivering quality workmanship, solving complex mechanical issues, and providing excellent customer service.
